80/20 SURFACTANT

Plant Agra 80/20 Surfactant is a nonionic surfactant adjuvant. It is designed for use with pesticides which require a nonionic surfactant. It may also be used with most insecticides, herbicides, fungicides, desiccant and defoliant. Plant Agra 80/20 Surfactant increases contact activity through faster wetting, aids in penetration and provides uniform coverage of sprays.

DIRECTIONS FOR USE:

Follow herbicide/pesticide manufacturers label recommendations. Plant Agra 80/20 Surfactant may be used as shown below based on 100 gallons final spray mix. Use the higher rate for adequate wetting when using hard water.

GROUND APPLICATION:

	10-40 Gal/AC	40-100 Gal/AC	2-10 Gal/AC
Herbicides:	1-1/2 – 2-1/2 pt	3/4 - 1-1/4 pt	2 - 4 pt
Fungicides/Insecticides:	1/2 - 1 pt	1/4 - 1/2 pt	1 - 2 pt
Defoliant:	1 - 2 pt	1/2 - 1 pt	1 - 1/4 – 2 - 1/4 pt

Plant Agra 80/20 Surfactant should be the last ingredient added to the spray mixture. Agitate to insure thorough mixing.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal condition of use, but neither this warranty or any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk.
